COMPANY PROJECT STATEMENT

This Activity Plan is the foundation upon which the health and safety management structure is based. The plan contains, in general terms, the approach that will be adopted by management at all levels. The plan outlines the responsibilities of personnel, both to the project and environmental issues by following all statutory provisions and local codes of practice.

Procedures will be in place to identify principal health and safety hazards likely to be encountered during the construction work and where appropriate measures to be taken against hazards noted. Risk assessments will be prepared by management under the Management of Health and Safety at Work Regulations 1999.

It is management's intention that the work will be carried out on the project in accordance with the framework of, but not limited to:

- HS (G) 65 - Successful Health and Safety Management.
- The Health and Safety at Work Act 1974
- Management of Health and Safety at Work Regulations
- Construction (Design and Management) Regulations
- The Provision and Use of Work Equipment Regulations
- The Lifting Operations and Lifting Equipment Regulations
- Control of Noise at Work Regulations
- Working at Height Regulations
- Control of Vibration at Work Regulations
- Control of Substances Hazardous to Health (Amendment) Regulations 2005
- Reporting of Injuries Diseases & Dangerous Occurrences Regulations 1995
- Workplace (Health, Safety & Welfare) Regulations
- Personal Protective Equipment Regulations
- Electricity at Work Regulations

All the above as amended

Management will have the responsibility for implementing the plan throughout the duration of the project and will ensure that health and safety considerations are always given priority in planning and day to day supervision of the work.

Management will ensure that all employees are made aware of their responsibilities for health and safety and are given sufficient information, training, instruction and supervision to enable them to carry out their duties.

MAR will co-operate with the Principal Contractor during the execution of the project and comply with the rules outlined within the Construction Phase Health and Safety Plan.

MAR has appointed Hurst Setter and Associates as their external H&S Consultants, who will visit the site; when instructed, to inspect the work in progress and report the findings to the Managing Director.

It is the intention of MAR; that its work will be carried out in accordance with relevant statutory provisions and all reasonably practicable measures taken to avoid risk to its employees or others who may be affected.

Management and Supervisory staff has the responsibility for implementing this Policy throughout the Company and must ensure that health and safety considerations are of paramount importance in planning and day to day supervision of work.

MAR will ensure that all employees are made aware of their responsibilities for health and safety and that they are given sufficient information, training, instruction and supervision to enable them to carry out their duties effectively and safely.

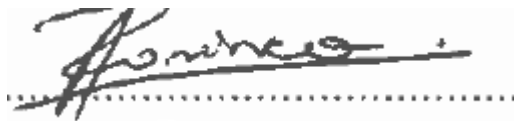

All employees and Contractors are expected to co-operate with the Company in carrying out this Policy and must ensure that their own work, so far as is reasonably practicable, is carried out without risk to themselves or others.

The Board of Directors has appointed the Managing Director as having particular responsibility for Health, Safety and Welfare for EUK. Reference should be made to him in the event of difficulty arising in the implementation of this Policy.

The operation of this Policy will be monitored by the management and staff of the Company. To assist them in this respect, the Company has appointed Hurst Setter and Associates to visit sites and workplaces (When requested) and to give advice on matters relating to health and safety.

The written statement of organisation and arrangements for implementing the Policy will be available through the management structure and at each location for reference by any employee as required.

**COMPANY
STATEMENT OF
GENERAL POLICY
FOR HEALTH, SAFETY
AND WELFARE FOR
SITE BASED
ACTIVITIES**

RESPONSIBILITIES

Project Manager

- Ensure that the Construction Phase Plan for the project has been reviewed and that it takes into consideration all aspects of health and safety.
- Ensure that all contractors on the project are competent to undertake the work required.
- Ensure that Contractors Risk Assessments and Method Statements are obtained and approved before work commences on site.
- Provide the Principal Contractor with all necessary documentation for the project.
- Ensure that the Company co-operates with the Principal Contractor and the requirements outlined within the Plan.
- Monitor health and safety performance on site through routine site inspections of both the practical work and supervisory control.
- Follow the duties outlined within the MAR. Health and Safety Policy document.

MAR Site Manager

- Ensure that adequate arrangements are available on site and are as stated within this Management Health and Safety Plan.
- Ensure that all the required documentation is available for inspection by the Principal Contractor and Safety Advisor, and is kept up to date.
- Ensure that all activities carried out on site are following statutory requirements and the procedures stated within the Safety Method Statement.
- Liaise with the Principal Contractor and ensure that the requirements outlined within the Health and Safety Plan are followed by all staff and contractors.
- Ensure that Company procedures regarding accidents, incidents on site are followed.
- Follow the duties outlined within the MAR. Health and Safety Policy document.

Contractors

- Identify the hazards of the work and produce Risk Assessments stating how they are to be controlled.
- Produce a formal Safety Method Statement for the high risk activities.
- Comply with the site rules outlined within the Health and Safety Plan.
- Follow the directions of the MAR. Site supervisor and the Principal Contractor.
- Follow the rules as stated within the document.
- Follow the duties outlined within the MAR. Health and Safety Policy document.

General Duties of Everyone

The Health and Safety at Work Act 1974, requires all employees and self-employed persons to take reasonable care of themselves and others who may be affected by their acts or omissions, and to co-operate with their employer and the principal contractor by observing their company's procedures and the site rules and so enabling the various companies to comply with their statutory duties. In particular, employees can assist by:

- Using the appropriate protective equipment (i.e.; safety helmets, eye protection, hearing protection, safety footwear etc)
- Keeping personal tools and equipment in good condition.
- Reporting all defects in plant, equipment, and any unsafe acts to their Site Manager.
- Not operating any plant or carrying out any task for which the employee has not been trained and is not familiar with.
- Follow the site rules and any relevant method statements.
- If an employee has any doubt about the health and safety aspects of the task being undertaken, he should inform his immediate supervisor or the Site Manager.

CHANCES MUST NOT BE TAKEN.

**RESPONSIBILITIES
CONTINUED**

QUALITY POLICY STATEMENT

M. A. Rarinca fixing is a company that facilitates the installation of quality steel, glass and cladding products and provides a high level of service as it coordinates contracted works in a supervisory capacity.

The main thrust of MAR's policy is to consistently anticipate and achieve client's needs and expectations, offering them innovative and effective technical solutions, realising these within an agreed budget and delivery time frame. This is how we are known by our clients, whose repeat business is a cornerstone of MAR's success.

The management team's mission is to implement our client focused quality system and ensure the commitment of all employees who are involved in completion of the company's works. They do this by ascertaining that the correct levels of knowledge and skills are provided to enable the provision of a quality service.

In addition to the aims stated above, MAR will also pursue the following objectives in order to comply with their documented Quality Management System:

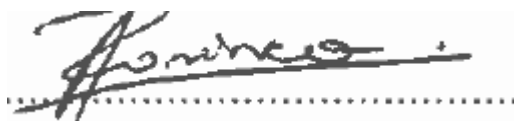

- Comply with the legislative requirements
- Ensure that we remain dynamic in our drive for continuous improvement.
- Understand the high expectations set by our organisation and its clients
- Ensure we deliver on time and within budget.

We will encourage our suppliers and contractors to work in line with, or produce their own Quality processes to reflect the high standards set by M. A. Rarinca fixing.

The company Quality Manual, policy and all documentation referred to here has been prepared with the authority of the Company Director who is committed to the policies, operation and maintenance of the Quality System.

Andrei Alexandru has been appointed as management representative, to ensure that our quality system is well understood, implemented and where appropriate improved within our organisation.
